For information call Jen at (253) 833-9111 ext. 4366 or jhall@greenriver.edu

* Prerequisite is Boot Camp. This course is a continuation of professional development for professional-technical faculty who have limited or no teaching experience. In a one-week, intensive, hands-on format, essential elements of developing and implementing active learning strategies and techniques, writing outcomes and assessment, writing student assessments, teaching and leading diverse students, and using new instructional technologies* will be introduced and modeled by a team of experienced instructors/facilitators. The emphasis will be on practical and real life applications that newer instructors will need to be successful.

- Washington State Skills Standard for Professional-Technical Instructors and Industry Trainers: A Manage the Learning Environment; B. Develop Outcomes, Assessments, and Curricula; C. Develop and Review New Programs D. Provide Student Instruction; and I. Learn and Adapt New Technologies.
